

Frankenstein Project Rubric — Accommodated Version

ESE / 504 / IEP Supported — Student Name: _____ Date: _____

Teacher Chunking & Accommodation Notes: Break project into 6 mini check-ins, one per criterion, with separate due dates. Allow extended time (1.5x–2x) and preferred seating. Allow oral response/scribe, speech-to-text, or audio recording instead of written paragraphs where appropriate. Provide a model/exemplar for each criterion. Allow a graphic organizer for planning before writing. **Accessibility:** Each criterion uses a distinct pattern (in addition to color) and the rating levels use shape symbols (✓ / ▲ / ✕) so the rubric is readable without relying on color alone.

This rubric is catered to the accommodations students bring within their profile. The feedback questions are connected to the concepts of the semantic map project done through Claude. By making the feedback notes transparent, students will get an idea of how the teacher will think about their responses. This can also help the teacher target what to look for within the writing.

Disclosure: This rubric document was generated with the assistance of Claude (Anthropic). The paragraph above is the original work of the instructor.
